Safety Supplies

The Perfect Application for a Vending Strategy

Supply Pro
simplicity that delivers

SupplyPro brings control and accountability to accessing safety supplies and equipment anytime, anywhere 24x7x365

Ready to start saving time and money while addressing worker safety, availability and compliance?

Key reasons to implement an Intelligent Materials Management solution for safety supplies:

- **Reduce consumption**
  - o Automation and accountability causes consumption to fall 20 – 30% on average – activating dispense limits have shown savings greater than 50% in usage and spend
- **Manpower reductions**
  - o Fewer workers are left to manage and distribute supplies – automation is a controlled 24/7 solution
- **Quality assurance**
  - o Do the fibers in cotton gloves cause quality failures on the assembly line? Then restrict access to the appropriate glove type
- **Housekeeping Initiatives**
  - o Eliminate overflow of open bins and waste from workers taking bundles and leaving them throughout the work area
- **Ensure the right access to the right safety supplies**
  - o The lightweight cotton glove is not appropriate for workers in the fabrication department? Then restrict access.
- **Standardization and purchasing initiatives**
  - o Eliminate off-contract spending and unlimited versions of products (i.e. safety glasses: tinted, wrap-around, full face, colored, etc)
- **Eliminate risk associated to safety equipment maintenance**
  - o Never issue a lanyard out of calibration
- **Immediate access to information**
  - o Automated and on-demand cost reporting by user, product, department and job – or any other important data point
  - o Identify users that have ***not*** taken necessary safety supplies and reasons why

Make the right safety supplies available to the right employees for the right jobs whenever and wherever needed!

Typical Results:

- **Reduce consumption on average 20-40%**
- **Eliminate abuse of items with "take home appeal"**
- **Reduce "ghost cribs" and hoard of supplies**
- **Ability to produce audit reporting for SOX compliance**
- **Reduce injury incidents and surrounding costs**
- **Increase compliance and accountability**
- **24/7 automated access to critical safety supplies**

It's a delicate balance to make safety supplies widely available yet manage costs.

If you currently have supervisors, managers, skilled trades or even supplier sales personnel doing any of the following tasks – then the SupplyPro Point-of-Use systems will save you money and time:

- Passing out Personal Protection Equipment at a crib window
- Managing a locked supply cabinet
- Manually keying in transactions to an ERP system for reordering
- Visually counting inventory to pull and restock bins

Safety Supplies is One of the Top Cost Savings Applications with Automated Point of Use Systems

- A large automotive manufacturer ***saved $1M in the first year*** after installing SupplyBay devices plant wide to manage gloves
  - Greater than 50% spend and usage reduction
  - Stopped free issue and automatic delivery of standing order by supplier

- A single automotive division experienced a reduced associate safety and supply expense by more than $2 per associate per day
  - 61% consumption reduction
  - Recovered over $5,000 in supplies from departmental stashes

- A nuclear power plant saved $350,000 in the first year
  - Closed crib on 3rd shift and redirected labor
  - Consumption Reduction

- A national railway implemented a corporate wide solution
  - All PPE transactions interface directly to ERP system
  - More than 80% of transactions removed from stores window

Common Applications and Safety Items Managed:

- **Gloves (washed and new)**
- **Safety glasses**
- **Head and face protection**
- **Aprons**
- **Goggles**
- **Vehicle keys**
- **Lanyards and fall protection**
- **Welding protection**
- **Sweatbands**
- **Hard hats**
- **Respirators**
- **Hearing protection**
- **Lockout / tagouts**
- **Vehicle key access**
- **Confined space equipment**
- **Medicines**
- **Safety vests**
- **Rain suits**
- **Electrician suits**
- **And more!**

Key Opportunity – Reduce Consumption on Items with Take Home Appeal

Popular activities where safety products are found include gardening, biking, camping, car races, and more!

Gloves at work ⟷ **Gloves at home**

SupplyPro's Intelligent Materials Management Solution

Choose the right machine for the application and environment to bring control and accountability along with ACCESS to critical safety supplies. SupplyPro devices can be used separately or combined to bring you the most efficient, cost-effective and easy-to-use solutions.

SupplyBay

Absolute Control® in a Rugged, Industrialized Vending System

The most versatile, industrial-grade vending system available. Performance engineered for harsh environments, designed to handle high-volume throughput and provide trouble-free dispensing for a wide range of safety supplies.

Standard glove configurations available!

SupplyAgent

Automated Point-of-Use Cabinet System

Compartment-level control and quick access to a wide variety of materials and supplies. Store a high volume of materials in a very small footprint.

Add up to four (4) Three-Drawer options in a SupplyAgent to increase capacity for smaller supplies!

SmartDrawer™

A Low-Cost Solution to Control, Track and Manage Inventories

SmartDrawer technology is extremely versatile and configurable, allowing by-compartment, individual levels of access control and accountability for each application. Manage items under absolute control for single-item dispense and return or high-density part number level management.

7 cover sizes available!

SupplyLocker

Absolute Control® in a Modular, Industrialized Locker System

Manage check-out/check-in tooling, loan periods, calibrated instruments, automated lockdown and larger consumable items or bulk inventory.

SupplyPro - Simplicity that Delivers

SupplyPro, Inc. is the premier provider of Point-of-Use (POU) inventory management solutions with over 4,500 installations in 39 countries. Our solutions bring proven simplification to the distribution and management of MROP, safety and tooling supplies at the work cell. Easily adaptable to customers' business environments to deliver the industry's highest return on investment. Industry-leading capability to interface to existing ERP and supply chain systems. **For more information, visit www.supplypro.com, email info@supplypro.com or call 1.858.587.6502 or 1.513.671.4933 x. 107.**
